Jason Floyd

age: 19

residence: Columbia South Carolina

education: College Undergraduate

occupation: None

marital status: Single

Hoping to get good grades and have a good time

Jason is a student here at the University of South Carolina studying at the Molinaroli School of Engineering and Computing. Jason has a lot on his plate trying to balance his grades, his social life, and his ambitions for the future. In his free time, Jason enjoys playing basketball, hanging out with his friends, and playing video games in his apartment with his roommates. Although Jason is doing well in his classes, he is concerned about the classes he will have to take in the future in order to get his degree. Jason really wants to stay on track and get his degree as soon as possible so he can proceed into the workforce.

Criteria For Success:

Jason has very high career expectations that rely on him getting his degree and building up his resume. He feels successful when he is able to take classes that push him towards his future goals.

Needs

- An app that can tell him what classes to take next semester
- Descriptions of the array of classes offered to him in his future semesters
- To take classes that set himself up for success

Wants

- Maintain a high GPA
- Continue to have a social life while balancing classes
- A simple and stress-free option to picking classes

Values

- Jason is very hardworking and driven. He knows what he wants and will make sure that he achieves his goals

Fears

- Jason fears that he won't be able to graduate in time if he chooses any wrong classes. He also worries that he won't get good grades which will interfere with his odds at getting the job he wants right out of college
